GENERATIVE AI FOR EDUCATORS

Foundations & Classroom Applications

with Jeff Utecht

Internationally recognized educator and speaker focused on instructional technology, digital leadership, and future-ready learning.

Generative Artificial Intelligence is no longer a future consideration—it is a present reality in teaching, learning, and assessment. This virtual professional learning session supports K–12 educators in developing a clear, practical understanding of AI while maintaining strong instructional practice and professional judgment. Designed for beginner to intermediate users to ensure all CSRA educators have similar baseline knowledge and skills. A deeper dive into AI is already scheduled for a later day.

LEARNING OUTCOMES

AI FOUNDATIONS

- Understand what Generative AI is and how it works (plain-language approach).

CLASSROOM APPLICATIONS

- Explore practical classroom uses for Lesson planning; Differentiation; Feedback; and Teacher efficiency.
- Identify appropriate and inappropriate uses of AI in schools.
- Examine impacts on student learning, assessment, and academic integrity.

ETHICAL AI USE

- Build confidence using AI ethically and responsibly.
- Leave with immediately applicable strategies.

WHO SHOULD ATTEND

- ✓ K-12 Teachers
- ✓ Instructional Coaches
- ✓ School & District Leaders
- ✓ CSRA RESA Specialists
